SEASONS

In this category, I work with the best seasonal flowers. The colors of nature paint the palette. The bouquet is usually round and full, embraced with greenery.

ROMANTIC/BOHEMIAN/WILD

The most playful feeling can be found in this category. It is lush, wild and creative. The bouquet often has an irregular shape. It's wonderful to mix color combinations here to create depth and dimension. Beautiful colors include wine red, burgundy, champagne, dark pink and touches of dark blue. In autumn, rust and mustards tones also fit beautifully into this category.

STYLISH/ELEGANT

Here I use more flowers than greenery and fewer varieties. This category has a cleaner, more refined expression. It looks best when you stick to one color or a single color palette.
